### Reason for wanting to serve on the PSIA-NW Board of Directors:

My goal as your representative is to open communication avenues between you as a PSIA-NW member and the BOD by providing access to the most recent information available through-out the year. To see current information go to [www.brendall.com](http://www.brendall.com) (my personal ski blog).

My diverse industry experience and past Board experience allow me to appreciate the issues from multiple perspectives and to use this knowledge to work toward positively supporting the individuals that make up a healthy snow sports community.

Prior to BOD meetings, I will seek feedback from the Mt. Hood regional community so that I can fully appreciate and represent member interests, concerns, and opinions.
