

PSIA-NW Tech Team Member

Role Summary

In the Spring of 2019, PSIA-NW will be holding selections for our PSIA-NW Technical Team. If selected to this role, you will deliver exceptional quality training alongside a team of highly-skilled professionals in both indoor and on-snow settings. To succeed in this position, you will be dedicated, hardworking, and a true team player, with a passion for your trade, a deep sense of pride in your work and driven to help your clients succeed.

Duties and Responsibilities

- Provide “Best-in-Class” education for PSIA-NW membership
- Collaborate effectively with peers to create products and presentations for the organization
- Communicate positively and effectively with Division management and administrative staff
- Provide all necessary equipment and reliable transportation for on-snow instruction, travel will occur throughout our region, WA, OR, ID, MT and AK
- Demonstrate a vast knowledge of NW Division’s products and PSIA and best practices
- Have, and maintain, up to date knowledge of snow sports industry trends and materials
- Be a lifelong learner and demonstrate continued self-improvement
- Maintain excellent membership relationships, helping to build and increase the PSIA-NW community
- Demonstrate and maintain exceptional, precise and accurate skiing skills in a variety of applications, speeds, terrain and snow conditions
- Available to work and/or collaborate on multiple divisional events and trainings

Minimum Requirements and Qualifications

- Current PSIA-NW Member
- Level 3 alpine certification for a minimum of 2 seasons
- Actively engaged and available daily to communicate with management and peers using current technology (text, email, basecamp...)
- Excellent communication skills
- Adaptable while working in a dynamic environment, able to flex and flow, on the fly, with any changes
- Have a Washington State UBI number
- Commit to being available a minimum 6 days for PSIA-NW events, specifically Fall Seminar, Tech Series, Divisional Academy and Symposium
- Commit to attending a minimum 3 days training per season

Preferred Experience and Qualities

- Divisional Clinician
- Significant experience with training for certification or other industry related credentials
- Several seasons training ski instructors or coaches to improve their performance/clients experiences
- Have produced quality articles in relevant industry publications/media, including visual aids
- Have produced engaging indoor presentations related to snow sports and content relevant to the organization
- Current experience with PSIA Level 1 accreditation and exams

Packet Details - Submission Process

Please submit by 5pm Monday the 15th of April to events@psia-nw.org, in a single PDF document with the following contents **in this order**:

1. Title sheet with name & contact information
2. Cover letter explaining why you want to be, or remain, a member of the team including your ability to commit to events and training days
3. Snow pro tip - A short (<400 words) article with integrated photos or images
4. Premium article suitable for publishing (>800 words) with integrated photos or images

Please include photos or images embedded into article. When we publish, we will work with you on high resolution images.

Make sure your personality is reflected in your articles.

Should you need help on merging your files together into a single PDF on Mac or Windows here is a link to wikihow page <https://www.wikihow.com/Merge-PDF-Files>
