8. PSIA Member 1963 - Present

Reasons for wanting to serve:

I have worked long and hard to provide quality leadership to the Division during my time on the Board. Presently, the Board is doing a thorough review of its governance processes and revisiting its strategic plan to more narrowly focus on outcomes beneficial to our members. At our meeting in September 2016, I was asked to chair a newly appointed committee to redraft our policies and procedures in order to bring our governance structure in line with the way we are actually functioning several decades after our organizational documents were created. My continued presence on the Board will allow me to fulfill that assignment.
