**Reason for wanting to serve as Member School Representative and/or on the PSIA-NW Board of Directors:**

I want to continue to represent the instructors of Stevens Pass and the exceptional snowsports experience that they provide to our guests. I want to continue to work as a voice for the members and our community of instructors on topics like professional development opportunities and providing increased visibility of the information affecting our profession. I would like to help the division provide increased access to professional benefits to the instructors of my region.

**Signature**

A handwritten signature in blue ink, appearing to read "Andrew", is written on a white background.
