Summit at Snoqualmie

On-snow Occupation

SnowSports Director

On-snow Job Title

SnowSports Director

Off-snow Occupation (if any)

Cub Scout Den Leader; Dad

Off-snow Job Title

Daddy

Industry and PSIA/AASI Involvement:

As a full time professional instructor I have enjoyed a long career teaching, training and coaching others in snowboarding and skiing. I have served as an Instructor, Examiner and DCL in both the Western and Northwest Divisions and also have taught in the Intermountain and Eastern Divisions. I was fortunate enough to earn a tryout for the AASI National Team, and blessed to support training throughout California, Nevada, Oregon, Washington and Montana. Throughout my career I've worked hard to earn my AASI Level 3, Children's Specialist 2 and PSIA 1, and am currently training towards PSIA Level 2.

As a member of the PSIA-NW Board of Directors I have been fortunate to participate in discussions and votes involving how our board operates and how it can best serve our membership. Currently, I am engaged on a sub-committee with the focus on creating governing ends for our organization. It has been a highly educational and rewarding experience and I am looking forward to continuing my service in this regards.

As a Snow Sports Director the partnership with the PSIA-NW office is critical to our school successes. Together we have been finding ways we can better serve our membership by creating opportunities to participate in educational clinics and credentialing programs earlier in the season in order for members to better apply their learning throughout the season. We are also working on ways to better serve the member schools by creating innovative trainings relevant to member school leadership and management.

Reason for wanting to serve as Member School Representative and/or on the PSIA-NW Board of Directors:

It is my desire to continue serving the membership of PSIA-NW as a member of the Board of Directors because I believe that my influence is helping to improve the quality of the services members receive across all disciplines. Through my work on the ends sub-committee alone we are seeing the value of credentialing and certification come more into focus. I am also helping to bring to light the concerns of all of our disciplines and making sure they all have a voice at the table. It is my sincere belief that my efforts are creating more value for all of our members, and it is my wish to continue these efforts over the coming years.
